## Killer will NEVER get out - judge

THE Olievenhoutbosch serial killer Jabulani Nyauza was an evil serial murderer, a Pretoria High Court judge said yesterday. Judge John Murphy sentenced Nyauza to 16 life terms and a further 140 years in prison on 24 charges of murder, rape, attempted murder and robbery. He said Nyauza should never be released. Nyauza killed 16 women between 2002 and 2006. The court heard that Nyauza blamed women for the fact that he was infected with HIV and felt they did not deserve to live. - SAPA
