For Immediate Release

No DECISION to charge Zuma yet - NPA

We note, with deep concern, the incorrect and misleading report in the Star Newspaper this morning about the NPA ‘confirming their intention to re-charge the Deputy President of the ANC, Mr Jacob Zuma’

“We find this report completely misleading and irresponsible. We were at pains to stress, both in our court papers and in oral argument that the State has not yet taken a decision to charge Mr. Zuma and Thint again” says the NPA.

The fact that we may be ‘marshalling evidence’ as part of our investigations cannot be construed as a confirmation that a decision to prosecute has already been taken and especially not when we have explicitly stated the contrary

We view this report in a very serious light and **DEMAND** the newspaper to retract this report without further delay.
